CRACKING THE ENIGMA OF CULTURE.***

## Conference Summary:

Consistency underpins all the evidence-informed recommendations in the EEF's Improving Behaviour in schools guidance report, with Ofsted identifying this as the main area for improvement when addressing behaviour.

A shared understanding of expectations from pupils, staff and parents driven by a well thought through and implemented policy is essential if the learning opportunities for all are to be maximised in schools.

At our conference we will hear from a range of expert speakers on their proven approaches to leading behaviour in schools and developing strong cultures, in addition to hearing some of the latest thinking about innovative approaches.

We have a range of workshop leaders who will share their practitioner based experiences of classroom and whole school approaches to behaviour management and culture development with all delegates being given access to session recordings and materials following our event.
